Doctor of Nursing Practice Project

Description of DNP Project
The DNP Project is an evidence-based Project that demonstrates a synthesis of the DNP Program outcomes. Incorporating principles of evidence-based practice, students will address a specific healthcare problem or health outcome and implement practice changes that improve health care, health care delivery, or health-related outcomes. The DNP Project is the final product of the DNP Program, providing evidence of scholarship and mastery in the areas of leadership, scientific methods, and practice improvement. Students who complete the DNP Project will have the skills and expertise to implement, use, and evaluate evidence-based nursing practice, therefore providing the highest quality care and promoting the best patient outcomes. This Project is congruent with the American Association of Colleges of Nursing (AACN) Essentials of Doctoral Education for Advanced Nursing Practice (2006).

The DNP Project will be a practice change initiative developed in response to a health or healthcare delivery problem for a specific population which receives services from a particular agency. Students should work with key individuals in the agency to identify a suitable healthcare problem that is a priority for the agency and for which a feasible intervention can be developed within the timeframe of your DNP Program.

DNP Project
The DNP Project Team provides guidance and expertise in the successful design, implementation, evaluation, and dissemination of the DNP Project. The student’s assigned faculty advisor will serve as the DNP Project Advisor. The DNP Project Team will consist of two doctorally prepared DBGN faculty members: the advisor and one additional Project team member. At least one of the DNP Project Team members must be a member of the DNP Committee.

Role of the DNP Project Team
DNP Advisor
The Advisor will guide the student through the DNP Project process to include:
- DNP Project Team member selection and approval;
- Meetings with DNP Project Team members;
- Clinical agency site contracts and agreements;
- IRB approval and compliance;
- Project approval, development, implementation, and evaluation;
- DNP Project Final Report;
- DNP Project Final Presentation.

DNP Project Team Members
The DNP Project Team members will provide guidance throughout the Project process, including:
- Active participation in all Project team meetings;
- Periodic consultation in area of expertise as needed;
• Constructive and timely feedback on drafts of the student’s DNP Project proposal, DNP Project Final Report, and DNP Project Presentation.

**Steps in Completing a DNP Project**
The steps for completing a DNP Project are aligned with DNP course work to: (a) assure that students complete all important steps leading to the DNP Project implementation, (b) keep students focused on their DNP Projects throughout their course work, (c) provide objective checkpoints for both students and DNP Project advisors throughout the students’ curricular progression, and (d) facilitate the student’s successful completion of the DNP Project.

With multiple entry points in the DNP program each year, students will be taking DNP core courses in a variety of sequences. However, the courses most closely aligned with the DNP Project (NSC 990, NSC 992, NSC 901, and NSC 994) have clear expectations that will help doctoral students streamline and complete their DNP Project requirements. DNP curricular plans are found in Appendix A. The *DNP Project Checklist* is in Appendix B.
## Course Alignment of Steps in Completing a DNP Project

<tr>
<td>1. A selected healthcare problem in a specific healthcare agency for which an evidence-based intervention is necessary.</td>
<td>2. Define scope of DNP Project.</td>
</tr>
</tbody>
</table>
1. Conduct an initial evidence-based integrative review related to the DNP Project.
2. Explore potential methods of evaluating the evidence-based intervention.
3. Meet with selected faculty members about serving on the DNP Project Team.
4. Obtain faculty signatures on Request to Appoint DNP Project Team Members form (Appendix C).
5. Hold an initial DNP Project team meeting by the date specified by NSC 990/992 faculty.
6. Finalize the clinical agency in which DNP Project will be implemented. Discuss collaboration with this site with the appropriate persons in the agency.
7. Assure any necessary clinical contracts or agreements are in place between the University and the agency.
8. Finalize DNP Project focus.

Note: Once a team is formed, students may request to change any member of their DNP Project Team. See Appendix D.

</tr>
<tr>
<td></td>
<td>3. Guide student in finalizing DNP Project focus.</td>
</tr>
</tbody>
</table>
### NSC 992 – Analytical Methods II

1. Select a process improvement model to guide your DNP Project.
2. Develop a comprehensive review of the literature.
4. Consult with your DNP Project Advisor on review of literature and initial proposal.
5. Seek initial proposal consultation as necessary from DNP Project Team members.
6. Submit written initial DNP Project Proposal to DNP Project Advisor at the end of the course.

**Course Faculty will:**
1. Provide instruction and facilitate selection of process improvement model.
2. Instruct student in writing of comprehensive review of literature that supports the DNP Project.

**DNP Project Advisor will:**
1. Provide feedback on comprehensive review of literature.

**Project Team Members will:**
1. Provide feedback on DNP Project Proposal Draft 2.
2. Provide feedback on IRB Draft 2.

### NSC 901 – DNP Project Support

1. Meet with DNP Project Advisor as necessary.
2. Finalize preceptor agreement for DNP Project.
3. Draft IRB application for EKU and/or designated clinical agency.
4. Complete DNP Project Proposal - Draft 2 based on feedback from DNP Project Team.
5. Initiate *Statement of Mutual Agreement Form* (Appendix E), if appropriate.

**Course Faculty will:**
1. Provide guidance for obtaining agency approval for preceptorship.
2. Provide guidance on IRB Draft 2.

**DNP Project Advisor will:**
1. Provide feedback on DNP Project Proposal Draft 2.
2. Provide feedback on IRB Draft 2.

**DNP Project Team will:**
1. Meet with student and advisor, as necessary.
2. Provide feedback on DNP Project Proposal Draft 2, as necessary.
3. Provide feedback on IRB Draft 2, as necessary.
# NSC 994 – DNP Project

## DNP Project Advisor will:
1. Guide the student in completion of:
   a. Project proposal
   b. IRB Application
   c. Project implementation
   d. Data analysis
   e. Final Report
   f. Final presentation
2. Schedule DNP Project Team meetings as necessary.
3. Assure completion of all DNP Project grading rubrics.

## DNP Project Team members will:
1. Provide input to student on:
   a. Project proposal
   b. IRB Application
   c. Project implementation
   d. Data analysis
   e. Final Report
   f. Final presentation
2. Attend the final DNP Project Presentation.
3. Complete final DNP Project Report and presentation grading rubrics.

## Complete Proposal Process:
1. Revise DNP Project proposal until approved by DNP Project Team.

## Obtain IRB Approval:
1. Prepare IRB Application for EKU and DNP Project clinical agency, following appropriate guidelines.
2. Submit completed IRB to DNP Project Advisor. Revise as necessary.
3. Submit completed IRB Application to DNP Coordinator for review. Revise as necessary.
4. Submit IRB Application to EKU and DNP Project clinical agency.
6. Obtain full IRB approval from EKU and DNP Project clinical agency prior to implementation.

## Implement DNP Project:
1. Implement the DNP Project.
2. Collect all DNP Project data.
3. Conduct DNP Project data analysis.

## Prepare Final Report and Presentation:
1. Write the Final Report with continued input from the DNP Project Advisor and input from the DNP Project Team members.
2. Obtain final approval from DNP Project Team
3. Submit Final Report to DNP Coordinator for approval. Revise as necessary.
4. Prepare final DNP Project Presentation with continued input from the DNP Project Advisor and DNP Project Team members.
5. Submit final presentation to DNP Coordinator for approval. Revise as necessary.

<table>
<thead>
<tr>
<th>NSC 994 – DNP Project (continued)</th>
</tr>
</thead>
<tbody>
<tr>
<td><strong>Disseminate DNP Project:</strong></td>
</tr>
<tr>
<td>1. With the DNP Project Advisor’s approval, request to schedule a final presentation of the DNP Project through the Department of Baccalaureate and Graduate Nursing.</td>
</tr>
<tr>
<td>2. Present the completed DNP Project to the DNP Project Team and interested members of the academic and clinical communities.</td>
</tr>
<tr>
<td>3. Obtain final confirmation from DNP Project Team that the DNP Project expectations for the DNP degree have been met.</td>
</tr>
<tr>
<td>4. Submit the DNP Project Report in electronic format to Encompass and as a printed bound paper copy to the DNP Program Coordinator, Advisor, and each Team Member. The bound copy should printed on one side, bound with flat binding, and have a clear cover and solid back.</td>
</tr>
</tbody>
</table>

**Optional:** Obtain Copyright (Certificate of Registration) for DNP Project.
DNP Project Proposal Format

Adhere to the most recent edition of the Publication Manual of the American Psychological Association

1. Title page

DNP Project Final Report Format

Once final revisions are complete and approved by the DNP Project Team, submit the DNP Project Report in electronic format to Encompass and as a printed bound paper copy to the DNP Program Coordinator, Advisor, and each Team Member. The bound copy should be printed on one side, bound with flat binding, and have a clear cover and solid back. The report is to be consistent with APA style. Adjust margins for binding as necessary. The report should follow the SQUIRE 2.0 guidelines. Additional information about these guidelines can be found at http://www.squire-statement.org/. The report should include:

1. DBGN Required DNP Project Title Page (Appendix G)
2. Abstract based on Squire 2.0 guidelines
3. DBGN Required DNP Project Signature Page (Appendix F)
4. Acknowledgements
5. Table of Contents
6. Body of Paper following Squire 2.0 guidelines
7. References

Revised Standards for Quality Improvement Reporting Excellence (SQUIRE 2.0)

Revised May 2018
### Title and Abstract

1. **Title**

   Indicate that the manuscript concerns an initiative to improve healthcare (broadly defined to include the quality, safety, effectiveness, patient-centeredness, timeliness, cost, efficiency, and equity of healthcare)

2. **Abstract**

   a. Provide adequate information to aid in searching and indexing

   b. Summarize all key information from various sections of the text using the abstract format of the intended publication or a structured summary such as: background, local problem, methods, interventions, results, conclusions

### Introduction

**Why did you start?**

3. **Problem Description**

   Nature and significance of the local problem

4. **Available knowledge**

   Summary of what is currently known about the problem, including relevant previous studies

5. **Rationale**

   Informal or formal frameworks, models, concepts, and/or theories used to explain the problem, any reasons or assumptions that were used to develop the intervention(s), and reasons why the intervention(s) was expected to work

6. **Specific aims**

   Purpose of the Project and of this report

### Methods

**What did you do?**

7. **Context**

   Contextual elements considered important at the outset of introducing the intervention(s)

8. **Interventions**

   a. Description of the intervention(s) in sufficient detail that others could reproduce it

Appendix E

Statement of Mutual Agreement Form
Statement of Mutual Agreement for DNP Project

The purpose of a Statement of Mutual Agreement is to describe the agreement between a designated clinical agency and the DNP student regarding the student’s DNP Project.

I. General Information

Student Name: __________________________________________

Project Title: __________________________________________

Agency: ________________________________________________

Agency Contact: _________________________________________

II. Brief description of the Project

- Evidence-based intervention
- Expected Project outcomes (products, documents, etc.)
- On-site Activities (DNP student role, required meetings, access to agency records, non-disclosure expectations)
- Products resulting from the DNP Project with potential market value.

Any products produced from collaboration with the agency must be discussed with the student, DNP Project Advisor, and appropriate agency representative. The ownership of intellectual property rights must be determined prior to the implementation of the Project.
Student Name: _____________________________________________

Project Title: _______________________________________________

III. Agreement of written and oral communication
   • Reference to clinical agency in student’s academic work, publications, and presentations
   • Restrictions on discussion of any Project or agency details
   • Formal agency approval needed for any publicly shared findings

IV. Required Signatures:

______________________________  _____________________________
Student  Date

______________________________  _____________________________
DNP Project Advisor  Date

______________________________  _____________________________
Agency Representative  Date
